PARADISE ISLAND BAHAMAS

COME TO LIFE – TALENT USED BUT NOT FEATURED IN THE :60

Farreno Ferguson, Photographer ([About](#))

For the past 15 years I've been working as a professional photographer based in The Bahamas, but with a global reach. I've developed a style I like to describe as a unique blend of sexy, urban and island glamour. From beauty, fashion, wedding, lifestyle, corporate and landscape my portfolio covers it all. Shooting for a variety of clients from local and regional celebrities to newborns, my signature style stands out amongst Bahamians and is respected by fellow photographers around the world.
